Date of Birth: 12 March 1996

Gender: Female

SUMMARY

Data analyst, four years building commercial reporting in retail and fintech.

EXPERIENCE

Senior Data Analyst, PayGrid (2023 - 2026)

- Rebuilt the merchant reporting suite in Power BI. Month-end close went from 9 days to 2, and the commercial leads stopped asking engineering for numbers.
- Wrote and own the SQL models behind the churn dashboard, used weekly by the commercial team. Window functions for rolling retention and cohort views.
- Ran the pricing A/B test on the mid-tier plan. Read the result, recommended against rollout, and the recommendation held.
- Python (pandas) for the monthly margin analysis and any ad-hoc digging.

Data Analyst, Kobo Retail (2022 - 2023)

- Daily sales reporting in Python (pandas) across 40 stores.
- Built the store performance dashboard in Power BI that regional managers still use.
- Took over the stock-out report and cut its runtime from 40 minutes to 4.

SKILLS

SQL (advanced), Python (pandas), Power BI, A/B testing, Excel.

EDUCATION

BSc Statistics, University of Lagos, 2021.
