SUMMARY

Marketing analyst turned data analyst. Four years, mostly on campaign and customer analytics for consumer brands.

EXPERIENCE

Data Analyst, Marketing, Consumer goods distributor (2023 - 2026)

- Built the campaign performance dashboard in Tableau. Used by the marketing director and the four regional commercial managers every Monday.
- SQL against the CRM and sales warehouse, including window functions for customer recency and frequency segmentation.
- Ran A/B tests on email and SMS campaigns. Lifted promotional conversion from 2.1% to 3.4% over eight months of iteration.
- Python (pandas) for the customer segmentation refresh each quarter.

Marketing Analyst, Advertising agency (2022 - 2023)

- Media spend reporting across six client accounts.
- Built the first version of the agency's attribution model in Excel, later rebuilt it in SQL.

SKILLS

SQL, Tableau, Python (pandas), A/B testing, Google Analytics, Excel.

EDUCATION

BSc Economics, Obafemi Awolowo University, 2021.
